

Phase 3: Multiple Taskboard Automation

Objective

When the manager approves an Employee Onboarding Request, automatically:

1. Create Laptop Task
 2. Create ID Card Task
 3. Create Employee Access Task
 4. Send Approval Email to Employee
-

Step 1: Open Existing Flow

1. Navigate to **Flow Designer**
 2. Open **Employee Onboarding Approval & Rejection Flow**
 3. Edit the flow after the **Manager Approval** step
-

Step 2: Create Laptop Provision Task

Add a **Create Task** action.

Configuration

Field	Value
Table	Employee Onboarding Task
Short Description	Provision laptop for new employee
Description	Prepare laptop and required access
State	Open
Parent Request	Trigger → Employee Onboarding Request

5
Create Employee Onboarding Task Task

Provide system access to Employee

Create email account,vpn access , and required application access

Open

4 - Low

Step 5: Send Approval Email

Add **Send Email** action.

Configuration

Field	Value
Target Record	Employee Onboarding Request
To	Employee Email
Subject	Employee Onboarding Approval

Sample Email Content

Hello,

Your onboarding request has been approved.

The following tasks have been initiated:

- Laptop Provisioning
- ID Card Creation
- System Access Setup

Our teams are processing these requests.

Welcome aboard!

Regards,
HR Team

email approval onboarding

Action Properties

Action: Send Email

Action Inputs

Target Record: T... Employee Onboarding R...

Table: Employee Onboarding Request [...]

Trigger: Record Created > Employee Onboarding Request Record > Employee Email

* To: Trigger - ... Employee ...

CC:

BCC:

* Subject: Employee Onboarding Approval

Step 6: Activate and Test Flow

1. Click **Save**
2. Click **Activate**
3. Click **Test**
4. Select an Employee Onboarding Request record (Example: EOR00000007)
5. Run the test

Test flow

Run your flow to make sure it has no errors before you activate it. When the test finishes running, check the execution details to see each action's configuration, runtime values, and the log messages for any errors that occurred.

Step 8: Verify Flow Execution

- Return to Flow Designer.
- Refresh the execution details page.
- Verify:
 - Approval completed
 - Laptop Task created
 - ID Card Task created
 - Employee Access Task created
 - Email sent successfully

Flow Status should show:

Completed

Expected Output

After Manager Approval:

- ✓ Laptop Task Created
- ✓ ID Card Task Created
- ✓ Employee Access Task Created
- ✓ Approval Email Sent
- ✓ Flow Execution Completed Successfully

This format is suitable for your ServiceNow project record, viva, and documentation.
